SAFETY ISSUES

Budapest is
safe, but do
not walk alone
in the dark!

Especially if you
had drinks,
especially ladies

**SAFETY MEANS
LOOKING
OUT FOR
EACH
OTHER**

Being of a “visible minority” in Budapest

- Budapest is multicultural
 - In the countryside you may be a curiosity
 - People judge by your clothes first of all
 - You will primarily be viewed as a tourist
 - Prepare for being stared at
 - ... and microaggression
-

**Always lock the
doors of your
apartment –
even if you are
inside.**

**Do not leave your
stuff on the
corridors!**

Beware of pickpockets

Especially on trams 4-6 and 2

Do not use unmarked taxis

The price/km should be displayed!

*Suggestion: use the
BOLT app to order
taxis (works like Uber)*

**Use common sense
when making
friends on the
street**

To better serve U.S. citizens in Hungary, ACS regularly updates its Warden system. The Warden system is designed to ensure that U.S. citizens receive timely information about natural disasters, civil emergencies or anything else that could affect their safety while in Hungary.

The Warden system for Hungary has been broken down into smaller units, according to districts, counties and/or by organizations. We would like to enroll every U.S. citizen in each of these regions and to identify U.S. citizen Wardens who would assist the Embassy to inform other U.S. citizens in their area of fast-breaking news. In general, Warden duties are not time-consuming, but could be vital in times of emergency.

U.S. citizens around the world who travel or reside abroad can access a newly launched Department of State web site for enrolling their foreign
